## **Combined Nursing Faculty & Provider Summit March 31 & April 1, 2010 Wichita Marriott Hotel, Wichita, KS**

The purpose of this very important summit is to tie together the findings and input gained from the last two summits, and lay the groundwork for a strategic plan regarding nursing faculty and clinical access in Kansas. The first summit had participants look at what some other states are doing, share some innovative ideas, and respond to a series of guided questions. The second summit, born as an outcome of the first, provided the perspectives of clinical practice regarding clinical education access and related issues. This third, and final summit, will bring together education and practice, so together these partners can lay the foundations for a strategic plan.

We are again requesting attendees consist of nursing program deans or directors, and one significant other faculty member from education; and a representative from the clinical practice side that is involved with nursing education from a provider standpoint.

This summit is funded through grants provided by KBOR and KHA. Meals, breaks and lodging will be covered.

Please contact Don Richards [drichards@ksbor.org](mailto:drichards@ksbor.org) or Cara Geve [cgreve@kha-net.org](mailto:cgreve@kha-net.org) for more details.

***A registration form with hotel information will follow by e-mail and also posted at [http://www.kansasregents.org/adult\\_ed/career.html](http://www.kansasregents.org/adult_ed/career.html)***
