

KANSAS BOARD OF REGENTS
Adult Education Special Projects
FY2024

Special Projects are monies for new ways to deliver Adult Education. Programs might create ways to increase enrollment, increase services beyond current services, or innovate another project to benefit adult learners.

Special Project funding is available by request from KBOR until funds are depleted and thus cannot be guaranteed. Special Project funds will be granted to high-quality projects based on the order in which fully completed applications are received and approved by the Kansas Board of Regents.

Applications should be submitted to AdultEdReports@ksbor.org.
