

**KANSAS BOARD OF REGENTS**  
**CAREER TECHNICAL WORKFORCE GRANT**  
(Formerly the Vocational Education Scholarship Program)

**PURPOSE OF THE PROGRAM**

The purpose of the grant program is to encourage individuals to further their education and provide the benefit of their employment to the State of Kansas to assist in the development of a strong state workforce in high demand, critical industry employment fields.

**PROGRAM REQUIREMENTS**

Grants are awarded to students who are residents of Kansas and have graduated from a high school accredited by the State Board of Education or who have received general educational development (GED) credentials issued by the Kansas Board of Regents, or have graduated from a home school program or a non-accredited private secondary school as defined and authorized pursuant to K.S.A. 72-53, 100 et.seq. Students must be enrolled in or have been accepted for admission to an eligible career technical education program operated by a designated Kansas educational institution that has been identified as offering a technical certificate or associate of applied science degree program in a high cost, high demand or critical industry field. Designated Kansas educational institutions include technical colleges, community colleges, and public four-year colleges that award associate of applied science degrees; and Washburn Institute of Technology. Only technical certificate and associate of applied science degree programs are included among the eligible programs. Students may be enrolled either part-time or full-time in their program of study. Awards for part-time students are pro-rated based on the number of hours enrolled.

**SELECTION CRITERIA**

The selection criterion used by the Kansas Board of Regents in selecting recipients includes Kansas resident status and admission or enrollment in a designated high demand; critical industry program of study at a designated Kansas educational institution. Preference is given to applicants with financial need as measured by the Free Application for Federal Student Aid (FAFSA).

**AMOUNT OF AWARD**

The maximum amount of the award is \$1,000 per year for full-time students. Part-time student awards are proportionate based on the number of credit hours the student is enrolled in per academic period, when compared and computed as a fraction of the total number of credit hours required for full-time enrollment. Funding for the program is subject to the availability of resources. The priority deadline for applications is May 1<sup>st</sup> each year. Awards are renewable contingent upon the recipient maintaining satisfactory academic progress, continuous enrollment in a high demand, critical industry field, submission of a renewal grant application, and the availability of funding.

Information is available by contacting the Kansas Board of Regents at 785-296-3518 or our website at: [www.kansasregents.org/scholarships\\_and\\_grants](http://www.kansasregents.org/scholarships_and_grants)
