

Kansas Training Information Program

Career Technical Education

Fiscal Year 2008

Kansas Board of Regents

Reginald L. Robinson, President & CEO

FORWARD

This report was prepared in response to K.S.A. 72-4451, which establishes the Kansas-Training Information Program (K-TIP). Presented in the first section of this report are the numbers of career technical program concentrators, number of program graduates, number pursuing additional education/training, number of concentrators leaving public postsecondary education in Kansas and were reported as employed, in military service or in apprenticeships; the placement rate; and average salary by program for each institution. The second section of this report presents the same performance information by occupational cluster and program area and then by institution.

Information presented in this report was compiled from data submitted to the Kansas Board of Regents from the individual postsecondary institutions and supplemented with data provided by the Kansas Department of Labor where available.

TABLE OF CONTENTS

Introduction.....	i-vi
K-TIP	
Allen County Community College, Iola	1
Barton County Community College, Great Bend	2-3
Butler Community College, El Dorado	4-6
Cloud County Community College, Concordia	7
Coffeyville Community College, Coffeyville	8
Colby Community College, Colby	9
Cowley County Community College, Arkansas City	10-11
Dodge City Community College, Dodge City	12-13
Flint Hills Technical College, Emporia	14-15
Fort Scott Community College, Fort Scott	16
Garden City Community College, Garden City	17
Highland Community College, Highland	18
Hutchinson Community College, Hutchinson	19-20
Independence Community College, Independence	21
Johnson County Community College, Overland Park	22-24
Kansas City, Kansas Area Technical School, Kansas City	25
Kansas City, Kansas Community College, Kansas City	26-27
Kaw Area Technical School, Topeka	28-29
Labette Community College, Parsons	30
Manhattan Area Technical College, Manhattan	31
Neosho County Community College, Chanute	32
North Central Kansas Technical College, Beloit	33-34
Northeast Kansas Technical College, Atchison	35
Northwest Kansas Technical College, Goodland	36-37
Pratt Community College, Pratt	38
Salina Area Technical School, Salina	39
Seward County Community College, Liberal	40
Southwest Kansas Technical School, Liberal	41
Washburn University, Topeka	42
Wichita Area Technical College, Wichita	43
Program Performance by Career Cluster Areas	
Agriculture, Food and Natural Resources	
Architecture and Construction	
Arts, A/V Technology, and Communications	44-47
Business Management and Administration	48-49
Education and Training	50

Finance	51
Health Sciences	52-55
Hospitality and Tourism	56-57
Human Services	58
Information Technology	59-60
Law and Public Safety	61-62
Manufacturing	63-64
Marketing, Sales and Services	65
Science, Technology, Engineering and Mathematics	66
Transportation, Distribution and Logistics	67-69

INTRODUCTION

The Kansas Training Information Program (KTIP) report includes data for approved career technical education programs offered by area technical schools, technical colleges, community colleges, and Washburn University. This information was compiled from data submitted to the Kansas Board of Regents resulting from follow-up surveys conducted by the individual institutions on program concentrators. Employment and wage information is reported only for those students reaching program concentrators and who have left public postsecondary education. Supplemental employment data provided by the Kansas Department of Labor has been included as available.

LIMITATION OF REPORT

The figures in this report should be considered as indicators and not as an absolute for placement and/or earnings for any given program. The salaries are averages; actual individual earnings may be lower or higher than those published in this document. The number of responses in a given occupation and institution may be too low to draw any statistical inferences. Many other factors influence actual annual earnings; for example, average earnings will likely vary from one region to another within the state. In addition, some former students could be self-employed in established, successful businesses.

TERMS USED IN THIS REPORT

The information appearing on the following pages categorizes individual postsecondary career and technical education programs by occupational career clusters and by institution. Specific terms/labels used in the report are defined as follows:

Cluster—This term refers to 1 of 16 career clusters developed by the States Career Cluster Initiative (SCCI) as an organizing tool based occupational/career areas. Each career cluster is comprised of a multiple career pathways and occupational specialties. The 16 career clusters include the following: (1) Agriculture, Food & Natural Resources, (2) Architecture & Construction, (3) Arts, A/V Technology & Communications, (4) Business, Management & Administration, (5) Education & Training, (6) Finance, (7) Government & Public Administration, (8) Health Science, (9) Hospitality and Tourism, (10) Human Services, (11) Information Technology, (12) Law, Public Safety, Corrections, & Security, (13) Manufacturing, (14) Marketing, Sales & Service, (15) Science, Technology, Engineering & Mathematics, and (16) Transportation, Distribution & Logistics. Additional information regarding career clusters can be found at www.careerclusters.org.

Program Name—This term refers to the name of the specific career technical program at each institution.

Award Level—This term refers to the type of award earned at the completion of the program of study.

ASSOC—Associate Degree

CERTC—Technical Certificate from 45 to 59 credit hours in length

CERTB—Technical Certificate from 30 to 44 credit hours in length

CERTA—Technical Certificate from 16 to 29 credit hours in length

SAPP—Certificate of Completion less than 16 credit hours in length

Concentrator—Program concentrators are students who:

- Were enrolled in a career technical education program as a program major during the reporting year (July 1, 2007 to June 30, 2008) and,

- Have earned at least 12 credit hours of technical coursework in an approved program consisting of at least 16 credit hours or more, or
- Completed a short-term career technical education training program of less than 16 credit hours

Graduate—This number represents those students who completed a career technical education program and earned a certificate or an associate degree during the reporting year.

Additional Education—This number represents the number of postsecondary students who reached concentrator status and subsequently returned to the same postsecondary institution or transferred to another public postsecondary educational institution to pursue additional/advanced education or training the following school year. This number also includes program graduates who returned to pursue additional education/training the following school year.

Employed Categories—These numbers represent the number of concentrators who left public postsecondary education and were determined to be in military service, apprenticeships, or employed in the workforce. This number includes program graduates who did not return for additional education and students who reached concentrator status who left public postsecondary education but may not have graduated.

Percent Success—The “% Success” was computed by dividing the combined total of those identified as in military service, apprenticeships, and employed by the number of concentrators minus those returning for additional education.

Average Salary—The average earnings were calculated on an annual basis reported by students during the follow-up surveys conducted by the institution and/or reported through a review of the unemployment insurance files provided by the Kansas Department of Labor as available.

JOB PLACEMENT AND EARNINGS

The data presented on the following chart summarizes the number of program concentrators, number of graduates, number of students returning to pursue additional education/training, number of concentrators who left public postsecondary education and were found to be in military service, apprenticeships, or employed, placement rates, and average salaries for all career technical education programs and for each career cluster areas.
