

# Institutional OER Initiatives

The Kansas Board of Regents OER Steering Committee is conducting this voluntary annual survey in order to gather updated information on how these resources are currently being implemented across various organizations in the state.

Note: By participating in this survey, you agree to share the information you provide with the other academic institutions on this list. Further, you will receive a copy of the results of this survey and insight on how your institution compares to others in the state.

Due Date: Friday, Feb 19, 2021

Directions: This survey is going to the chief academic officer at each institution but can be forwarded to the appropriate respondent. One response per institution should be submitted, though input from multiple sources may be required to locate all pertinent information.

Important definitions: This institutional survey is about Open Educational Resources (OER) which for the purposes of this survey are: teaching, learning, and research resources that are free of cost and access barriers, and which also carry legal permission for open use. Generally, this permission is granted by the use of an open license (for example, Creative Commons licenses) which allows anyone to freely use, adapt and share the resource—anytime, anywhere.

This survey is based on:
