

North Central Kansas Technical College

North Central Kansas Technical College (NCK Tech) is fully accredited by the Kansas Board of Regents and the Higher Learning Commission of the North Central Association of Colleges and Schools. With campuses in Beloit and Hays, the college offers 24 programs of study, each granting a Technical Certificate or an Associate of Applied Science (AAS) degree, as well as numerous short-term and online offerings. Since 1964, NCK Tech has delivered applied, innovative and personalized technical education designed to empower learners, enrich lives, develop skilled professionals and strengthen economic systems. With an excellent job placement rate (90%) and transferrable credits, NCK Tech prepares each student for immediate employment, industry-driven credentials, and further education.

Institutional Profile Notes – North Central Kansas Technical College

General Notes:

1. Demographic and enrollment data can also be found in the Kansas Higher Education Reporting System (KHERS). KHERS is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHERS allows users to view trends, filter reports, and perform comparisons through regularly-updated dashboards, graphs and charts. KHERS can be accessed via <http://www.kansasregents.org/>, under the “Data” heading.
2. Total Headcount and FTE have been added to the finance tables to add context to data as necessary.
3. The data in any tables that use the KHEDS AY Collection may have changed slightly in Academic Year 2010 through Academic Year 2014 due to a data clean-up which improved the quality of data. Due to this slight adjustment in data, these tables may not match exactly what was published in prior year data books.
4. While the number of years of data varies between tables in the Institutional Profiles section, the goal at Kansas Board of Regents is to have six years of data shown for each of our Data Book publications.

Table P.10: Student Demographics

1. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year.

Table P.11: Enrollment by Race/Ethnicity

1. North Central Kansas Technical College provided updated race/ethnicity data for AY 2015 due to an error in reporting the data to KBOR. Race/ethnicity data on NCKTC’s tables will not align with numbers in KHERS.
2. Starting in fall 2010, technical colleges and the Washburn Institute of Technology were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection. Due to these race/ethnicity modifications, starting in fall 2010, the students in the Hispanic ethnicity category increased; the students in the “Unknown” category decreased.
3. The “% Change” column does not reflect the change in percentage, but instead reflects the percent change in the number of students in each category for the time period. This number more accurately reflects the change in student population.

Table P.13: Enrollment by Age

1. The “% Change” column does not reflect the change in percentage, but instead reflects the percent change in the number of students in each category for the time period. This number more accurately reflects the change in student population.

Table P.14: Enrollment by Student Status

1. Full-time students are defined as those enrolled in at least 24 credit hours in an academic year.

Table P.15: Degrees/Certificates Awarded

1. A Short-Term Program Certificate is a Certificate of Completion award earned by completing a KBOR designated stand-alone program. A stand-alone program is less than 16 credit hours, leads to an industry recognized credential, license, or certification and has been specified as a stand-alone program by KBOR’s Workforce Development staff and included in the Program Inventory data system.
2. Technical Certificate A (16-29 Credit Hours) requires completion of an organized program of study in a technical area of at least 16 but less than 30 credit hours in length, at the postsecondary level (below the baccalaureate degree).
3. Technical Certificate B (30-44 Credit Hours) requires completion of an organized program of study in a technical area of at least 30 but less than 45 credit hours in length, at the postsecondary level (below the baccalaureate degree).
4. Technical Certificate C (45-59 Credit Hours) requires completion of an organized program of study in a technical area of at least 45 but less than 60 credit hours in length, at the postsecondary level (below the baccalaureate degree).

Table P.16: Graduation Rates of First-Time, Full-Time Freshmen

1. The IPEDS Graduation Rates component collects data on the cohort of full-time, first-time degree/certificate-seeking undergraduate students and tracks their completions status at 100% and 150% of the normal time to complete all requirements of their program study. Once a student is in the cohort, they remain in the cohort, even if their status changes to part-time or they drop out or transfer out of the institution. However, adjustments can be made to the cohort for allowable exclusions, which include the death of a student, permanent disability, military deployment, or service on an official church mission or with a foreign aid service of the Federal government.
2. The IPEDS 200% Graduation Rates component is a further extension of the traditional Graduation Rates component. It requests information on any additional completers and exclusions from the cohort between 151% and 200% of normal time for student to complete all requirements of their program of study. The reporting of data for the 200% completion period is not cumulative. Respondents are only asked to report data for the time period between 151% and 200% of normal time to completion.
3. Definitions are based on IPEDS definitions for full-time and part-time students:
 - a. Full-time is defined as a student who is enrolled in 12 or more semester credits each term.
 - b. Part-time is defined as a student who is enrolled in less than 12 semester credits each term.
4. The first year for the graduation rate is the first year of enrollment. Once a student has a completion, that completion is counted in all subsequent year rates.
5. North Central Kansas Technical College was not required to complete the 200% Graduation Rates Survey for cohort year 2010. This is because all students either graduated, transferred, were excluded, or were no longer enrolled within 150% of normal time (3 years for Technical Colleges). Due to the fact that NCKTC had no additional completers between 150% and 200% of normal time, the 200% graduation rate is the same as the 150% rate.

Table P.17: Fall Retention Rates of First-Time Students

1. The IPEDS Fall Enrollment component collects data on the cohort of full-time and part-time, first-time degree/certificate-seeking students determined using fall attendance status. Exclusions include the students who died or were totally and permanently disabled, to serve in the armed forces, to serve with a foreign aid service of the Federal Government, or to serve on official church missions.
2. Definitions are based on IPEDS definitions for full-time and part-time students:
 - a. Full-time is defined as a student who is enrolled in 12 or more semester credits each term.
 - b. Part-time is defined as a student who is enrolled in less than 12 semester credits each term.
3. The first year for the retention rate is the academic year following the year of enrollment. If a student has not completed and is no longer enrolled for a subsequent year, that student ceases to be counted unless he/she re-enrolls during a future academic period.

Table P.18: Student Success Index

1. Given the diverse population and varying mission of community colleges and technical colleges, the Student Success Index provides a more comprehensive measure of institutional effectiveness than traditional graduation and retention rates.
2. Outcomes for the Student Success Index are determined using data from both the KHEDS AY Collection and the National Student Clearinghouse. These outcomes are examined for an academic year cohort from the KHEDS AY Collection. The student is counted once per academic year for each institution. Translations have been made for merged institutions, and the current institution is used for the label. For completions, all completions reported to KBOR in the AY Completions File have been used. This may include stand-alone programs/occupational programs, certificates, and degrees. The segments on the index bar are mutually exclusive from left to right. Once the student is counted in one segment, that student is not counted in another segment.
3. The Student Success Index varies from typical IPEDS measures in the followings ways:
 - The index uses an academic year cohort, not the fall cohort.
 - The entrance year is the academic year in which the student entered the Kansas’ public postsecondary education system.
 - The index includes part-time and full-time students, as well as transfer students.

- Exclusions. IPEDS allows exclusion of students from the cohort such as death or total and permanent disability; service in the armed forces (including those called to active duty); service with a foreign aid service of the federal government, such as the Peace Corps; or service on official church missions. KBOR does not track or remove exclusions.
- Formal transfer prep programs. If an institution has a formal transfer prep program, but that student does not receive a formal award from the first institution, the first institution can count the student as a grad if the student fulfills the transfer prep program and transfers to another institution. KBOR does not track transfer prep specifically.
- IPEDS allows institutions to count completers as ‘retained’ in retention rates for 2-year institutions under some circumstances. These are broken out separately for the index.
- Types of degrees/awards. In order to count a student or award for IPEDS the student must be seeking a formal degree, certificate, or award. KBOR and institutions have not always defined these in the same way, and some awards/occupational programs have not always been collected by KBOR. The index counts postsecondary credit toward degrees, certificates, and stand-alone programs (occupational programs) if these have been submitted to KBOR. Any level of completion found within the specified timeframe is counted.
- Expected time to degree. For the success index, no differentiation regarding the length of a degree program was made. KBOR evaluates whether a student completed or retained at the end of each entrance year whereas IPEDS looks at 150% of the time of the degree program.
- Mergers. KBOR used translations for the merged institutions. It is uncertain how these were reported to IPEDS.

4. Specific data for the North Central Kansas Technical College Student Success Index is as follows:

Entrance Year	Completed Home Institution	Completed System Institution	Completed Elsewhere	Retained Home Institution	Retained System Institution	Retained Elsewhere	Student Success Rate
2008	70.8%	2.2%	0.0%	1.2%	2.8%	0.3%	77.3%
2009	66.1%	2.8%	0.3%	2.4%	3.5%	0.0%	75.2%
2010	69.3%	0.8%	0.0%	1.1%	1.6%	0.0%	72.8%
2011	71.6%	0.5%	0.0%	0.8%	1.5%	0.0%	74.4%
2012	77.9%	0.8%	0.0%	0.0%	1.6%	0.0%	80.2%
2013	76.3%	0.8%	0.3%	0.6%	0.3%	0.3%	78.6%

Table P.20: Total All Funds Audited Expenses

1. Beginning in the 2016 Technical College Data Book, the Finance tables in the Institutional Profiles section were condensed into Total All Funds Audited Expenses (P.20) and Total All Funds Audited Revenues (P.30), instead of the previous three tables: Total Audited Operating Expenses, Total Audited Operating Revenues, and Total Non-Operating Revenues. This change was made so that the Technical College Data Book aligns with the new Community College Data Book. This resulted in all expense (negative) categories in the prior Total Audited Non-Operating Revenues (P.40) table to now be included in the Total All Funds Audited Expenses table and all revenue (positive) categories in the prior Total Audited Non-Operating Revenues (P.40) table to be included in the Total All Funds Audited Revenues table. No categories were eliminated from the condensing of these tables.
2. The *Statements of Revenues, Expenses, and Changes in Net Position* located in the *Independent Auditors’ Report and Financial Statements* is the table from which the majority of data comes from on Table P.20 and P.30 for each institution. However, North Central Kansas Technical College classifies expenses for the financial statements by natural classification in the *Statements of Revenues, Expenses, and Changes in Net Position* which does not align for the purposes of the Technical College Data Book. NCKTC does have expenses listed by functional category for historical purposes in the Notes to the Financial Statements, specifically in Note 10 (**refer to “a” below**) which is where the majority of the expenses for Table P.20 come from.
 - a. Expenses by Functional Category are listed in Note 10 for the 2014 *Statements of Revenues, Expenses, and Changes in Net Position* and Note 11 for the 2013, 2012 and 2011 *Statements of Revenues, Expenses, and Changes in Net Position*.

3. The expense categories were created based on existing classification of expenses in the *Independent Auditors' Report and Financial Statements* for each institution for uniformity purposes.
4. For North Central Kansas Technical College, "Operation and Maintenance of Plant" includes their audit category "Physical Plant" and "Interest Expense" includes their audit category "Interest Expense".
5. The data for fiscal year 2014 for North Central Kansas Technical College was restated in the most recent *Independent Auditors' Report and Financial Statements*. The data has been updated in the 2017 Technical College Data Book, so the data for NCKTC will not match the previously published 2016 Technical College Data Book.

Table P.30: Total All Funds Audited Revenues

1. Beginning in 2016 Technical College Data Book, the Finance tables in the Institutional Profiles section were condensed into Total All Funds Audited Expenses (P.20) and Total All Funds Audited Revenues (P.30), instead of the previous three tables: Total Audited Operating Expenses, Total Audited Operating Revenues, and Total Non-Operating Revenues. This change was made so that the Technical College Data Book aligns with the new Community College Data Book. This resulted in all expense (negative) categories in the prior Total Audited Non-Operating Revenues (P.40) table to now be included in the Total All Funds Audited Expenses table and all revenue (positive) categories in the prior Total Audited Non-Operating Revenues (P.40) table to be included in the Total All Funds Audited Revenues table. No categories were eliminated from the condensing of these tables.
2. In the *Statements of Revenues, Expenses, and Changes in Net Position* located in the *Independent Auditors' Report and Financial Statements* is a category called "Capital Appropriations" in the Other Revenues section of the statement. This amount was not included in the 2015 Technical College Data Book, but will now be included in future publications of the Technical College Data Book. The "Capital Appropriations" are now added to Table P.30, resulting in a higher amount of revenues than published in the prior year.
3. The revenue categories were created based on existing classification of revenues in the *Independent Auditors' Report and Financial Statements* for each institution for uniformity purposes.
4. For North Central Kansas Technical College, "State Appropriations" includes their audit category "Governmental Appropriations - State Aid"; "State and Local Grants and Contracts" includes their audit category "Donations and Local Grants"; "Realized Gains" includes their audit category "Gain on Disposal of Property" and "Other Expenses" includes their audit category "Reimbursements".
5. The data for fiscal year 2014 for North Central Kansas Technical College was restated in the most recent *Independent Auditors' Report and Financial Statements*. The data has been updated in the 2017 Technical College Data Book, so the data for NCKTC will not match the previously published 2016 Technical College Data Book.

Table P.60: Changes in Unrestricted Cash

1. Beginning in the 2016 Technical College Data Book, the prior Changes in Net Position (P.50) table was replaced with General Fund Changes in Unencumbered Cash (P.60) table. This change was made so that the Technical College Data Book aligns more appropriately with additional Kansas Board of Regents publications. While currently there is only for years published for this table, the goal at the Kansas Board of Regents is to have six years of published data for each table.
2. Unrestricted Cash is calculated by subtracting Current Liabilities and Other Restrictions from Cash and Cash Equivalents found on the Statement of Net Position in the *Independent Auditors' Report and Financial Statements*. This amount represents monetary reserves that are not tied to a particular use.
 - a. Cash and Cash Equivalents represent the money that an organization can spend now, as they are assets readily available for use.
 - b. Current Liabilities are an institution's debts or obligations that are due within one year. This includes Accounts Payable, Payroll and other related liabilities, Accrued Wages, Accrued interest payable, Accrued rent, Current maturities of long-term debt, Compensated Absences, Prepaid Enrollment, Deferred revenue, Unearned Revenue, Deposits, Deposits/Funds Held in Custody for Others, and Other Liabilities.
 - c. Other Restrictions include cash restricted for building remodel.
