

KBOR Retirement Plan

Welcome to your retirement program!

Kansas Board of Regents recognizes the importance of providing you ways to plan for your financial future. Your retirement program is an important part of your overall benefits.

When creating your retirement strategy, within your plan you can take one of two approaches:

1. Select a Lifecycle Fund

Lifecycle Funds allow you to delegate asset allocation and rebalancing decisions. You can choose the Lifecycle Fund that most closely matches the year you plan to retire. For example, should you choose to retire at age 67 in 2044 you might consider the Lifecycle 2045 Fund. As with all mutual funds, the principal value of a Lifecycle Fund isn't guaranteed at any time and will fluctuate with market changes. The target date approximates when investors may plan to start making withdrawals. However, you are not required to withdraw the funds at that target date. After the target date has been reached, some of your money may be merged into a fund with a more stable asset allocation.*

2. Build your own retirement portfolio

Your plan offers a range of investment options from which to choose.
