The Kansas Board of Regents approved the System Wide Transfer (SWT) courses listed below. Faculty representatives develop the learning outcomes for all the courses. A student who successfully completes any of these courses at a Kansas public university, community college, or technical college will be able to transfer the course to any Kansas public postsecondary institution offering an equivalent course.

Additional courses may also be eligible for transfer. Please contact the Registrar's Office of your university or college for more information. Students are responsible for becoming acquainted with the program and degree requirements of the institution to which they expect to transfer.
