Introduction to Cultural Anthropology - ANT1010 CORE OUTCOMES

Course Effective Date: Fall 2013

Outcome Approval Date: Fall 2017

Next Outcome Review Date: Fall 2022

Upon completion of ANT 1010 – Introduction to Cultural Anthropology, students will be able to:

1. Define and apply key anthropological concepts, including: culture, ethnocentrism, cultural relativism, and holism.
2. Describe key anthropological methods, such as: ethnographic fieldwork, interview techniques, and participant observation.
3. Define the concept of culture and discuss specific examples of how it is learned, shared, and transmitted through symbolic systems including language.
4. Demonstrate knowledge of different cultural traditions through ethnographic analysis.
5. Identify and explain different anthropological perspectives on cultural change and continuity.
6. Identify ways in which different aspects of culture, including environment, economy, kinship, the arts, politics, religions and other belief systems, are interrelated and integrated in a cultural system.
7. Describe and give examples of the effects of colonialism and globalization on world cultures.
