Washburn	EC 200	Principles of Microeconomics	3

## ***Microeconomics - ECO1010 CORE OUTCOMES***

Course Effective Date: Fall 2012

Outcome Approval Date: Fall 2013

Next Outcome Review Date: Fall 2018

Upon completion of the above listed course, students will be able to do the following:

1. Explain the economic way of thinking by applying the following: scarcity, specialization, opportunity cost, marginal analysis, and production possibility.
2. Apply the supply and demand model and elasticity for economic analysis.
3. Analyze the relationship between production and cost as it pertains to total, average, and marginal costs.
4. Compare and contrast the operation of different market structures.
5. Critique the causes and effects of market failures.
