Institutional Profiles

Institutional Profiles Notes – Fort Hays State University

General Notes:

1. Due to rounding, numbers may not match other published reports.
2. In Fiscal Years 2020 through 2023, the universities received varying amounts of funding for COVID-19 relief. These amounts are primarily reflected as restricted use expenditures.

Table A: Enrollment by Student Characteristics

1. Beginning with the January 2015 data book, KBOR is using KHEDS Academic Year (AY) data instead of the KBOR Student Demographics Report and the Kansas Higher Education Enrollment Report (KHEER) for the enrollment and demographics data in Table A. The KHEDS Academic Year consists of consecutive summer, fall, and spring terms (i.e., the 2021 Academic Year covers Summer 2020 + Fall 2020 + Spring 2021). This change was made to align the data book with other KBOR reports.
2. Demographic and enrollment data can also be found in the Kansas Higher Education Statistics (KHEStats). KHEStats is a web-based reporting tool providing access to data about Kansas public postsecondary institutions. KHEStats allows users to view trends, filter reports, and perform comparisons through regularly updated dashboards, graphs, and charts. KHEStats can be accessed at stats.kansasregents.org/.
3. A divisor of 30 is used to calculate FTE for undergraduate students in an academic year, while a divisor of 24 is used for graduate students.
4. Prior year FTE data has been rounded to better align with KHEStats and may not match FTE data in previously published data books.
5. “Residency by Exception” refers to students who were not domiciliary residents of Kansas at the beginning of the academic year but are classified as Kansas residents for tuition purposes pursuant to an allowable exception per statute.
6. The “% Change” column does not reflect the change in percentage for Student Age: Undergraduates, Student Age: Graduates, and Student Race/Ethnicity, but instead reflects the percent change in the number of students in each category for the time period. These number more accurately reflect the change in student population.
7. Beginning in AY 2011, institutions were required to report student’s race/ethnicity according to definitions and parameters established by the U.S. Department of Education (IPEDS). According to these new definitions, a student’s race/ethnicity can now be reported in four newly created or modified categories: Black or African-American, Asian, Native Hawaiian/Pacific Islander, and Two or more races. The other race/ethnicity reporting categories are White, Non-resident Alien, American Indian/Alaska Native, Asian, and Unknown. The Hispanic ethnicity category includes all students who reported a Hispanic ethnicity, regardless of their race selection.
8. KBOR staff have worked to align completions definitions to IPEDS. As a result, the decision was made to modify the “certificates” category, beginning with AY 2014, to include all post-secondary university certificates that lead to an industry recognized credential, license, or certification in standard reporting. Certificates that do not lead to an industry-recognized credential are included under the “Other Awards” category. Certificates presented in Table 3.6 are categorized to reflect this new system of classification.
9. Gross Building area – the floor area contained within the building measured to the internal face of the external walls.
10. Net assignable area – the gross area less the actual structural, mechanical, restrooms, custodial and circulation area.
11. Total Gross area – area measured to outside face of each enclosed floor of building, excluding the roof.
12. The space factor shown for classrooms and teaching laboratories is derived by dividing the net assignable square feet by the weekly student contact hours. Small space factors indicate better utilization. More efficient utilization is easier to obtain at the larger institutions. The goal or standard particularly for the larger institutions is 0.83 for classrooms. Also, the goal for the classroom use is an average of 30 hours per week. For teaching laboratories, the goal is an average of 20 hours use per week and a space factor of 3.75 or smaller.
13. Prior to AY 2022, Fort Hays State University reported their China campus students as Non-Resident Aliens. For AY 2022, they incorrectly reported their China campus students in the Asian and Unknown categories. After reviewing federal guidance, FHSU provided corrected AY 2022 numbers for the state university data book. Starting with AY 2022 in the 2023 State University Data Book, China campus students are now correctly reported in the Unknown category. Data for prior years has not yet been corrected.
14. In Academic Year 2022, Fort Hays State University submitted erroneous completion data. Upon request, the university provided corrected completion counts for each degree type. The corrected data was provided after publication for the 2023 State University Data Book, and for that reason Table 3.6 had not initially been updated to reflect these new counts. The
corrected data for Academic Year 2022 has been published starting with the 2024 State University Data Book and will not match KHEStats.

**Table A: Student Success Index**

1. For information on the Student Success Index, please see the notes to Table 3.10 in section 3 of this data book.

**Table B: Total Operating Expenditures by Fund**

1. The substantial increase in scholarship and fellowship expenditures from FY 2021 to FY 2022 reflects increased student financial aid expenditures from the Federal American Rescue Plan and other COVID-19 related funds.
2. Between FY 2022 and FY 2023, the large increase in State General Fund expenditures is the result of increased funding for the University’s operating grant, IT and cyber security expenditures, and capital renewal funding. The large decrease in General Fees Fund expenditures is the result of the increased available funding from the State General Fund. A large decrease in restricted use funding is the result of federal COVID-19 related funding spent in FY 2022 and not available in FY 2023.

**Table C: Total Operating Expenditures by Program**

1. The substantial increase in restricted use funds from FY 2021 to FY 2022 reflects increased student financial aid expenditures from the Federal American Rescue Plan and other COVID-19 related funds.
2. Most of the increase from FY 2022 to FY 2023 was in Academic Support, related to increased funding for the University’s operating grant, IT and cyber security expenditures, and capital renewal funding. Decreases in Scholarships and Fellowships and Other expenditures from FY 2022 to FY 2023 were primarily the result of federal COVID-19 related funding spent in FY 2022 and not available in FY 2023.

**Table D: General Use Operating Expenditures by Program**

1. The primary increase in FY 2023 over FY 2022 is in Academic Support and is largely attributable to the 5.0 percent merit pay plan increase.

**Table E: General Use Operating Expenditures by Object**

1. Starting in FY 2018, Fort Hays State University’s “Classified – FTE” and “Classified – Expenditures” are no longer listed separately and now are included in “Unclassified – FTE” and “Unclassified – Expenditures” categories.
2. There was a significant decrease in general use other operating expenditures related to one-time expenditures made in FY 2022 that were not repeated in FY 2023.
